

*A School that  
Emanates Life*

**Ghaziabad Public School**

**Senior Secondary (Affiliated to CBSE, New Delhi)**

# About the SCHOOL

Welcome to Ghaziabad Public School. Our mission here at GPS is to provide your child with the best education possible in a way that is engaging, authentic, student-centered, innovative, integrates technology, and promotes an appreciation for life-long learning. We are an academic institution committed to excellence. This commitment requires not only respect for the differences in students and staff from widely diverse cultural, economic, social, intellectual, linguistic, and educational backgrounds but also a sustained effort to use that diversity to achieve this commitment.

Our dedicated staff will provide each student with the necessary tools they will need to lead productive lives in today's ever-changing society. It is our job to nurture and guide students to be the best they can be. The success of our students depends on active involvement of the entire school community as well as parents.

Entire GPS fraternity takes great pride for the school, what it has to offer, and its accomplishments.

Small intimate class size, individualized instruction, and a warm, family atmosphere are the hallmarks of Ghaziabad Public School. GPS is about developing great citizens of tomorrow, for the ordinary students who, under able guidance can do extraordinary things.

Entire GPS fraternity takes great pride for the school, what it has to offer, and its accomplishments.

# From Director's Desk

Every new beginning brings a fresh hope and this hope brings a desire and a longing to achieve the best. Education these days is not simply the amount of information acquired or put in the brain of children. The success of student doesn't entail the mere acquisition of knowledge. Even a high percentage of marks in exams is not a guarantee that our students will become successful in life. It will depend upon their ability to put this knowledge to use for their bright future. Our Institution endeavors to ensure an all round development of the personalities of our students.

We had an excellent, coordinated, transitional year and this year too we are in a phase, where we are laying more emphasis on inculcating a contemporary outlook with traditional values. At Ghaziabad Public School, we are striving to develop high standards of national and international competency level upholding the view that along with high spirits of competence, an individual should also be humble and down to earth. Just as raw clay is shaped by the potter we need to mould them and develop their personalities.

They are like buds each with its unique fragrance and colour and with infinite possibilities of bright future on the horizon of life. I feel proud to say that the school provides conducive atmosphere for the overall development of the children and exposes them to creative experiences. By doing so, we give them the gift of a rich and memorable childhood while laying the foundation for a lifetime creative expression.

I wish that all of them find their own place under the sun. May God in every human being surface and understand as well as nourish the humanity and planet earth.

**Krishna Yadav**  
(M.Sc,M.A,B.Ed)

Reflecting the high spirits & tone, School logo connotes elements of earth instituting life. Epitomizing how shining sun, zephyr air & serene blue water throw together a radiant flower. GPS echos the same avocation & works in harmony as of the elements to groom a child the way he is, comprising his essence & individuality with care.

# Goals of School

- To satisfy the educational, spiritual, emotional, and social needs of our students.
- To educate our students in all of the standard disciplines and to further prepare them academically for continued higher education.
- To instill in our students a love for learning that will continue throughout their lives.
- To help students acquire the skills they need to be responsible and contributing members of their family, school and community.
- To teach our students to develop and maintain a balance between their worldly success and spiritual pursuits.
- To develop the integrity and character of our students in the pursuit of moral excellence.
- To help our students develop a sense of social and civic responsibility towards their community.
- To encourage our students to establish dialogue and to interact with people of other faiths to appreciate our diversity and strengthen our world community.
- To teach our students to be critical thinkers, wise decision-makers and effective communicators.

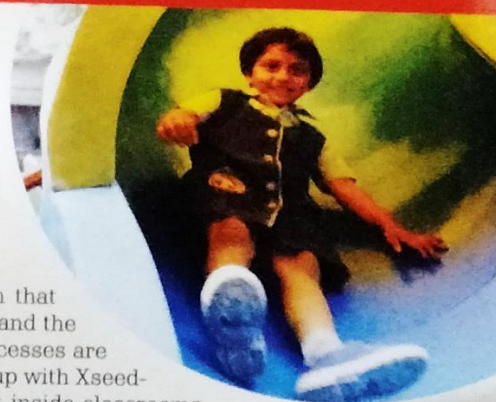

GPS endeavors to nurture the saplings with care, love and compassion by providing constructive, playway, fun & learning environment

## Clap 'n' Tap

The Clap 'n' Tap Wing recognizes the need for an individualized curriculum that prepares students for the ever-changing paradigms of the fast-paced present and the mystifying future. It is important that both the logical and spatial thinking processes are imbibed by the child correctly at inception. In keeping with this, we have tied up with Xseed-iDiscoveri delivering a better method of curriculum, training and assessment inside classrooms. Designed around the 5 Step Experimental Learning Method of teaching and learning in classrooms, Xseed is already helping improve the quality of education.

The arrangement of our classroom and its materials helps children form concepts about how the world is organized. Different symbols are displayed to form the foundation for children's emerging reading, writing and number skills.

## Middle Wing

A great focus is laid on formal learning of languages, mathematics and environmental studies. Weekly assessments and ongoing evaluation help locate the strengths and weakness of the learners. Promotion at the end of the year depends on the 3 round development of the learner, his/her steady progress throughout the year and his/her capability to cope up with the higher class. A host of co-curricular activities is a part of the curriculum along with computer science, general awareness, music, dance, art & craft and physical education. In class V students have an option of choosing either French or Sanskrit. The key areas which are taken care in the Junior School are:

- Learning through inquiry with focus on question driven open ended process.
- Learning and discoveries through hands-on activities.
- Learner centric approach allowing space for learners to involve in the process of knowledge.
- Focus on moral values, general awareness and life skill.

## Senior Wing

The senior school follows CBSE curriculum in the framework laid down by NCERT. The evaluation system is Continuous and Comprehensive as per the guidelines of the CBSE. Our curriculum at this stage is aimed at helping students become active thinkers and confident learners. Activities such as conferences, debates, field trips, counselling sessions and personality development workshops have thus been designed to promote self awareness, development and understanding along with the emphasis on subjects like languages, mathematics, sciences, social sciences and foreign languages.

Co-curricular and extra curricular activities like dance drama, music, creative writing, elocution, physical education, work experience, computer science form an integral part of the curriculum.

## Forward Thinking

### DEVELOPING SKILLS FOR THE FUTURE

Our educational programme helps students to become flexible thinkers who are able to question, adapt and creatively meet the demands of the future. Students are provided with opportunities to develop their information and communication skills. Our core values and learning contribute to the holistic development of each and every learner.

# Holistic Education

## Home-School Partnership

Parents as the stake holders, have a crucial role to play in forming healthy Home- School Partnership. Schools and parents need to work together to strengthen the bridge between family values and education. We believe that our relationship with parents is vital and the involvement of parents promotes the social, emotional, and academic growth of children.

We, at GPS nurture this relationship. Regular Parent Teacher Interactions help maintaining a healthy relationship and a strong bonding between the parents, teachers and students. We also empower parents and encourage Home- School Partnership Programmes where parents can:

- ▶ Provide a helping hand to teachers during lessons, field trips and special events.
- ▶ Offer expertise by conducting workshops, enrichment programmes etc.

An active partnership between parents and school helps the students in overcoming the shortcomings so that they can face the world as confident young adults, capable of taking charge of any situation.

## Co-curricular Activities & Sports

Opportunities abound for students to experience a variety of co-curricular activities, pursue their passion for the aesthetics and community service in the field for which they have a passion.

The bonding the students experience with their peers and teachers while being engaged in meaningful and fun activities, creates a distinctive and memorable experience for them. It also helps them imbibe the following:

- Respect for others and oneself
- Treat others as they wish to be treated
- Impose self control, be courteous
- Display ethical behaviour by being good and by being right
- Play fair and be a good citizen

With the aim to ensure the above virtues in our students, the school offers plethora of sports, cultural and co-curricular activities. Students have the option to choose one of the many co-curricular activities offered by the school. Each year new options are added to the list. The following activities are available to the students at present:

### ● Sports Activities

Football  
Cricket  
Basketball  
Lawn Tennis  
Skating  
Table Tennis  
Martial Arts  
Chess

### ● Fine Art Programmes

Mural Making  
Clay Moulding  
Visual-Arts  
Modern Art  
Painting  
Landscape  
Sculpture  
Mask Making  
Single Stroke Painting  
Pottery  
Tie & Dye

Talent Hunt Day  
Independence Day  
Republic Day  
Euphony  
Fun Galore

### ● Performing Arts

Public Speaking  
Theatre  
Shloka Chanting  
Speech & Drama

### ● Clubs & Self Enhancement Programmes

Environment Club  
Heritage Club  
Sports Club  
Art & Craft Club  
Aerobics/Yoga Club  
Robotics Club  
Astronomy Club  
Maths Club  
Health & Wellness Club  
Animation Club

### ● Important Days & Events Celebrated

Investiture Ceremony  
Graduation Ceremony  
Grandparent's Day  
Sports Day  
World Health Day  
World Malaria Day  
World Red Cross Day  
Civil Aviation Day  
World Habitat Day  
National Science Day

Earth Day  
World Population Day  
World Literacy Day  
International Heritage Day  
International Ozone Day  
International Dance Day  
International Labour Day  
Children's Day  
Halloween Day  
Teachers Day

### ● Music

Hindustani Music  
Indian Keyboard  
Tabla  
Harmonium  
Drums  
Congo  
Tanpura  
Guitar  
Tamborian

- Cheques to be dropped in the Drop Box.
- A fine of ₹ 20/- per day shall be charged as late fee from the 16th of the month till the date of payment.

### Transport Facility

The school provides transport facility to its students on non-terminating twelve months contractual basis per session as per the existing routes.

Discontinuation in mid session is strictly not allowed.

# Salient Features

GPS provides a rich and challenging learning environment

## POWER PACKED CURRICULUM

Proven globally to empower your child

### Power to Dream

- Wonder
- Visualize
- Imagine
- Conceptualize

### Power to Develop

- Explore
- Create
- Design
- Synthesize

### Power to Discover

- Observe
- Analyse
- Question
- Experiment

### Power to Deliver

- Solve problem
- Take decision
- Achieve
- Lead

Incorporating the fundamentals of CBSE Board and the National Curriculum Framework, our scientifically developed and child centric curriculum is project-based and incorporates the multiple intelligence concept which helps enhancing the inherited skills in every child.

## Facilities

The school provides an infrastructure which is par excellence. The air conditioned classroom, (Playway & Middle) student friendly furniture, ICT facility and audio visual teaching makes learning very interesting.

## Classrooms

Our spacious innovatively arranged classrooms attract the attention of a child coming to school. Activity based learning and highly personalized care and attention becomes the learners paradise with a healthy student teacher ratio.

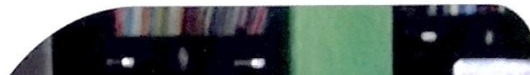

## Indoor Activities

The indoor sports like Table Tennis, Chess, Martial Arts, Aerobics, Yoga, Carrom, etc. provide a platform to nurture the physical development of our learners.

## Activity Centre

Activity Centre with all the facilities and amenities is the favourite haunt of the learners. It includes recreation room, music room, dance room, art studio, theatre and personality room. All these provide wings to our young learners to develop their creativity and artistic skills.

### Video Conference Room

Our high-tech video conference room opens the doors towards the world stage for our learners. Students involve themselves in discussing many global issues with their partner school and talking face to face with them. This platform has brought international standard to our curriculum and a source of globalization.

### Resource Centre

A readily accessible resource centre is available for teachers and students to enhance the quality of teaching-learning process.

### Computer Lab

A state-of-the art computer lab equipped with the latest technology gives the students an edge in the fast evolving IT field. The networked PCs provide the students with an easy access to internet under able supervision.

### Library

Our well stocked library houses books of diverse subjects, magazines, reference books, fiction and encyclopedia etc. It also houses CDs, and database on various subjects keeping pace with modern day electronic revolution and e-learning.

### Auditorium

A magnificent school auditorium equipped with latest light and sound mechanism gives an impetus to the cultural activities of the school.

### Medical Room

A well trained and experienced full time nurse, addresses the immediate medical need of the learners. A health card of each child is maintained.

### Cafeteria

A full-fledged out-sourced canteen is functional in the school premises. Through this canteen sumptuous and nutritious meals are served to the students.

### Maths Lab

Our Maths lab is specially designed to make Mathematics interesting by using mathematical tools, simulated explanations and audio visual explanations.

### Science Lab

A well equipped Science Lab encourages the students to inquire, observe, hypothesize, experiment, collect record and analyze data and come up with conclusions and generalization about the phenomenon under study.

### Smart Classes

The school stresses the need to keep pace with technology. With LED, computers and multimedia systems, the smart class room teaching at GPS is very comprehensive and demonstrative and provides the much needed global perspective to the process of learning.

### Transport Facility

Fleet of buses provide secure and comfortable mode of transport to the students and complements the infrastructural connectivity of the school.

### Improved Security Measures

School security is enhanced by installing CCTV cameras and PA System.

### Visits and Excursions

Monthly outings bring joy, excitement and are a mode of happiness transported among the students. These outings help young learners to collect and cherish information about the places they visit.

# Once You Choose, Everything is Possible

Our research based pedagogy of teaching enable students to become thinkers - various technological tie-ups and interactive programs contribute to rational grooming of each & every student.

Educomp Solutions Limited, founded in 1994 is a globally diversified education solutions provider and the largest education company in India.

Our research based pedagogy of teaching enable students to become thinkers - various technological tie-ups and interactive programs contribute to rational grooming of each & every student.

Vidyarthi is India's first Career Discovery Program, specifically targeting adolescents between Grades IX through XIII! In our research and interaction with school children in that age group we have found that 85% of children wished they had a structured form of career guidance.

The DigiSchool ecosystem is a highly intuitive classroom learning solution that combines World Class Interactive Content supported by a Cutting Edge Content Management and Delivery System that has proven to deliver measurable outcomes.

Xseed education is an educational approach in India, developed by iDiscoveri, India. XSEED is a complete academic solution for schools. It raises student performance and builds quality in teaching inside classrooms.

TaaRay is a free web based collaborative learning ecosystem embracing latest technologies and tools to empower educational fraternity to take learning to higher levels. Our expertise is Edging the Power of Networking with Learning, TaaRay is an incredible platform where everyone can learn and share their knowledge with the world.

This site is dedicated to EON application developers worldwide. There are different access levels of this site and if you have a full maintenance agreement with EON Reality you get access to all sections including; full online support, forums, newsletters demos and upgrades. Trial users will have limited access that includes software download and some demos.

We envision a boundary free arena encompassing both teacher and learner, where the syllabus is transfer of knowledge, skills, habits, values and all that makes life productive.

# The School at A Glance

# Hostel - Where you breathe life into Learning

## A Home Away From Home-Hostel:

Since every child is a precious individual with unique aptitudes, it is the aim of the educational institution to ensure that each one reaches his full potential. Recognition, enhancement and accomplishment of these innate abilities are given the serious attention they deserve. Life in the boarding home is carved to present the students the joyful experience of living together, a break to outshine in learning and to expand a disciplined way of living. Observation, interaction and responses are the chief means to closer understanding. To achieve this, teachers and students spend much more time together than they normally would in a day school. This invigorating environment prepares the ground for comprehending the full significance of value systems, cultural heritage and brotherhood. The two boarding homes- respectively for the girls and the boys offer world class flair to all the students. Dedicated wardens, tutors, and dorm parents ensure the comfort and academic fruition of the students.

A Medicare committee comprising of an in-house doctor and round the clock assistant takes care of the health and hygiene of the students to keep them hale and hearty.

GPS family consists of students from all corners of India, we strive our best to facilitate them and put them in a comfort sphere. The school has a well-set laundry and offers 24 hour generator backup for unimpeded dwelling of the students.

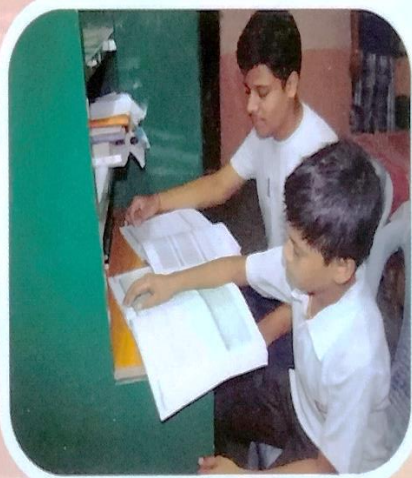

Maneuvered by the intellectuals and individually guided by the chairman and the secretary, the Institution gives enormous confidence and solidarity to the parent community living miles away from their toddlers.

## Pastoral Care

We rest assure the parents that when they send their children to GPS they are cared for at all times. In School, all teachers, in addition to Dorm Parents and wardens, care not only about their subject area but also about how each student is coping.

In addition to meticulously selected and trained, experienced teachers who are entrusted with the responsibility of caring for the students, there are Heads of departments, Curriculum Coordinators, Counselors, House Masters/Mistresses, and a senior management team to look after the needs of each child.

The system of caring is based very much on the family, where parents constantly look after their children and are worried about their every need. The staff and the facilities on campus, especially the residential program and the supervision system it uses, all work together to offer an atmosphere that is warm and caring.

# Ghaziabad Public School

**Senior Secondary (Affiliated to CBSE, New Delhi)**
